Rooms To Go & Tampa Devs

Joe Reed, C/O 2021

Strategy and Operations

Salesforce

Jay Glickson, C/O 1996

“It still amazes me that this was never done and is rarely done anywhere else.

This program exemplifies what EX brotherhood is all about. It’s a lot more than just your time while you’re in college. The brotherhood extends for a lifetime.

Working with Chris and getting to know others in the program makes me proud to be part of this fraternity. I hope I’ve added value in the process but I've gotten a ton out of it too and really enjoyed engaging with the current class.”

Zach Byank, C/O 2026

“This mentorship program has had a meaningful impact on both my professional development and personal growth. It has helped me approach networking and career exploration with greater confidence, structure, and intentionality.

Working with John has been a blessing. Beyond helping me stay organized and strategic with my outreach, he has consistently challenged me to think long-term about my career and the type of professional I want to become. His advice goes far beyond resumes and interviews.

Having someone who is invested in both my success and my growth as a person has made this process far less overwhelming and far more purposeful.”
